

**Project Assignment | Project Update #1**

Name: \_\_\_ Thane Holtorf \_\_\_\_\_

Student ID: \_\_\_ 0943 \_\_\_\_\_

Date: 2/17/26

**Instructions:** You should have one page (1 html file and 1 css file) of your site completed by the time you submit this.

Use the following to have a written discussion about the current progress of your website. After answering the questions below, insert a screenshot of the index.html file's browser view that you have completed so far (remember, you should have one page's browser view and a CSS file). Do NOT screenshot the HTML code, as we can't run the code. Save the file to yourasurite – Project Assignment – Project Update 1.docx file and yourasurite – Project Assignment – Project Update 1.pdf file. Submit both files to Canvas.

**1. How do you feel your website is coming along? (10 points)**

I'm happy with what I have so far, but I want to put more time and effort into making it better. I also need to add media as I didn't get a chance yet to look for pictures and videos.

**2. What issues have you encountered on your first few pages? (4 points) How did you fix those issues, if you did? (3 points) Are there any issues still unresolved? (3 points)**

I was having issues with spelling errors. When I was referencing the css file in the beginning, the text did not say exactly what the file is called causing the css file to not apply.

**3. Tables are useful when you need to display data in an organized and structured format, such as schedules, pricing lists, or comparison charts. They help improve readability and allow users to quickly interpret information. Describe in which page you would like to use a table on your website (2 point) and what info will be included in that table (8 points). Please note: A table needs to have at least a header row + at least three data rows + at least three columns.**

I want to include a table on the history page that will be titled something like stats and have information and statistics about pros in the sport.

**Project Assignment | Project Update #1**

4. Where would you like to use a form on your website? (2 points) What will the form be used for? (2 points) Draw a simple sketch of how it will look (what fields will be included, any basic styling, etc.) and paste it below: (6 points) Please note: A form should have at least 4 fields

I have implemented a form on my home page where the user can enter their information if they have any questions and want to get into contact.

5. List your project website's GitHub URL. (10 points)

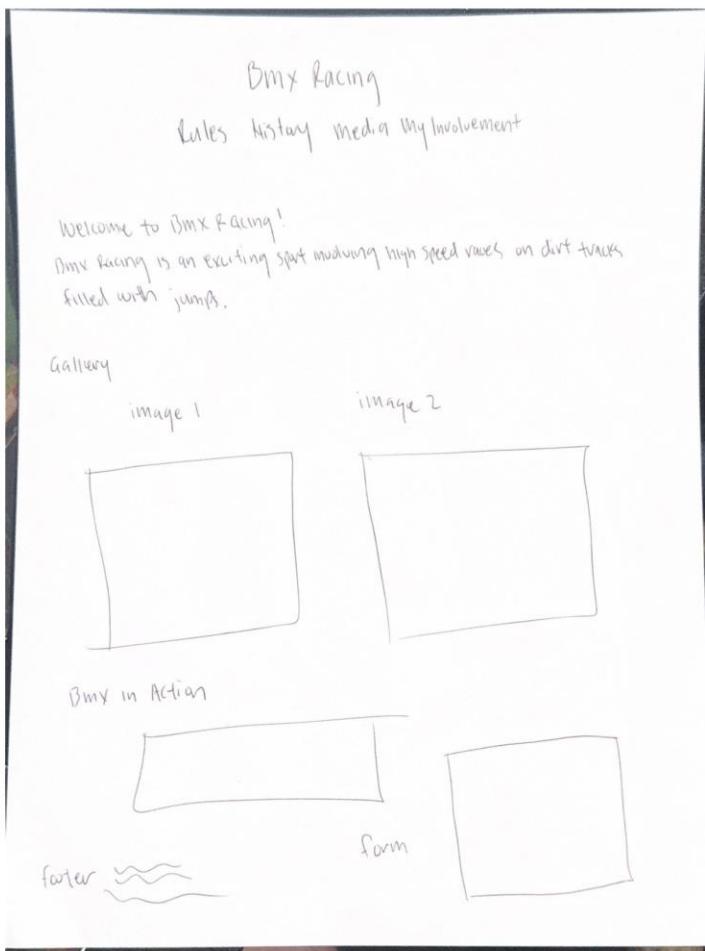

Thaneholtorf.github.io

6. After doing several pages, has your sitemap changed? If so, revise your previous sitemap and insert it below: (10 points).

My site map has stayed the same

**Project Assignment | Project Update #1**

7. Insert the latest wireframe below: (10 points)

**Project Assignment | Project Update #1**  
**Web page browser view screenshot of Page #1 (15 points)**

**BMX Racing**

Rules History Media My Involvement

Welcome to BMX Racing!

BMX Racing is an exciting sport involving high-speed races on dirt tracks filled with jumps and obstacles. Whether you're new to BMX or a seasoned rider, this site will guide you through rules, history, media, and how to get involved.
